Thanks, Apple – I will confer with Mike, but my thinking is that we don't need to include any comments or statements that EPA disputes or finds controversial. We are grateful that you made space with us. Here is the redline that I am going to suggest Mike accept for the final version.

I will let you know when I can confirm.

Best,

Matt

Matt & Mike,

Please see the attached comments. If you would like to discuss please let me know. If there are any revisions or tweaks you can make in response to the comments that would be helpful (even if it's just to note that EPA's position differs from the representations in this document – note: there are only a couple of places where we have comments on your description). All in all, I think this is a fair representation of the experience and I thank you for your honesty in describing the challenges and issues with the policy -- it is helpful for us moving forward in this sector. Thank you also for agreeing to provide a case study for the Roundtable. We look forward to discussing these (and other) issues later this month.

Thanks again,

Apple

Hi Jim and Apple,

Attached is the final case study regarding Range's experience with the New Owner Policy. Please let me know if you have any questions or comments.

When you have a moment, please send:

1. The invitee or attendee list; and
2. The latest agenda.

I'm assuming these are open meetings, so press may participate, but I would appreciate your thoughts on that as well.

Finally, on this email I'm cc'ing Mike Arch, who will be attending for Range. Please copy him on whatever materials or information you can provide regarding the roundtable.

Thanks very much,

Matt
